

# NAG (N-acetyl-glucosamine)

## Recommended Use:

- ▶ Gastrointestinal
- ▶ Ulcers
- ▶ GI inflammatory disorders
- ▶ Musculoskeletal
- ▶ Colitis
- ▶ IBS
- ▶ Crohn's disease
- ▶ Arthritis

N-A-G is a single ingredient product containing N-acetyl-glucosamine that aids in the formation of the complex molecular structure of the mucous membranes in the intestinal lining. Persons suffering from ulcers, I.B.S., Crohn's Disease, Colitis and other inflammatory disorders lack the ability to naturally manufacture enough N-acetyl-glucosamine to maintain the protective barrier that safeguards the intestinal lining from digestive enzymes and other potentially damaging

intestinal contents. N-A-G supplementation provides the body with the precursors required to repair wounded tissue and replace mucous membranes.

N-A-G is also an excellent product for musculoskeletal health (e.g. arthritis) as N-acetyl-glucosamine is important in the formation of connective tissue: bones, tendons, ligaments, cartilage and synovial fluid.

**Medicinal ingredients:** Each vegetarian capsule contains:

N-acetyl-glucosamine ..... 500 mg

**Non-medicinal ingredients:** Microcrystalline cellulose, Hydroxypropyl methylcellulose.

**Recommended dose (adults):** Take 2 capsules 3 times a day, or as directed by a health care practitioner.

**Caution/warnings:** Consult a health care practitioner prior to use if you are pregnant or breastfeeding. Consult a health care practitioner if symptoms persist or worsen.

**Contraindications:** Consult a health care practitioner if you are diabetic or sensitive to shellfish. Do not use in individuals with known or suspected sensitivity to the listed ingredients.

Keep at room temperature in a dry, dark place. Keep out of reach of children. Safety sealed for your protection.
