

CASE STUDY #1 – CLINICAL

This case study shows how well one Canadian MD, Dr. T., does in his small clinic with pH Structured Silver.

The total units of pH Structured Silver ordered in 2014 were 672 16oz bottles and 192 gels. In the first quarter of 2020 ALONE, he has already ordered 1,716 16oz bottles and 612 gels. The obvious customer satisfaction with the health benefits his patients receive not only produces repeat buyers, but also accelerates their purchases. Dr. T. is finding many of his patients are now coming back buying 6-12 bottles at a time so that they can share it with their family and friends.

With the many different applications pH Structured Silver has, you too can see these results in your clinic.

“Not a day goes by that one of my patients informs me of another miraculous experience with structured silver. I use it extensively in my practice for multiple infective and inflammatory conditions. Absolutely indispensable for me and my patients.” - Dr. T., MD
