

CASE STUDY #2 – PHARMACY

This case study shows one Canadian Pharmacy’s growth over the past 3 years. By educating their customers on the health benefits of pH Structured Silver, their sales have increased tremendously. Their initial 3-month order in 2017 was for 72 16oz bottles and 48 gels. That has increased to 708 16oz bottles and 144 bottles of gel in the first quarter of 2020 alone.

“The staff at (...) Pharmacy immediately introduced me to pH Structured Silver and told me the benefits of it. I was desperate to help my son, so I decided to give it a shot. I started using the silver gel to clean his ears, belly button, his privates, his bottom, and fingernails/toenails. The combination of the silver water and the silver gel did the trick. I continue to use the silver water in my house and realized that silver gel also helps with cuts, bruises, and rashes. I’m not saying that it will heal (...) I’m just wanting to let the world know that pH Structured Silver can help a family member feel healthier and stronger.”
- L Bhatti, Pharmacy Customer

“The silver water and silver gel were well received by the Doctors at the hospital and we were encouraged to bring it in from home to the hospital so it could be continued there.” – L. Rush, Pharmacy Customer
