

Aspergillus Niger 50 ml

Lungs, Musculoskeletal, Lymph, Skin, Mold

- ✓ Mold sensitivity
- ✓ Respiratory
- ✓ Urogenital
- ✓ Musculoskeletal
- ✓ Connective tissue

Aspergillus Niger is a homeopathic remedy that is used to maintain healthy structure of organs and tissues within the body.

In Germany *Aspergillus niger* is known as a symbiotic bioregulatory species within the human microbiome, providing foundational structural support for the connective tissue and mucous membranes, kidneys, lungs and respiratory tract, skin (growths, allergic reactions, itching), lymphatic congestion, and the entire musculoskeletal system including the bones, joints, ligaments, tendons, and muscles.

Medicinal Ingredients:

- Aspergillus niger 5X (Lyophilisate prepared from biomass released from the culture medium after the fermentation of *Aspergillus niger*)

Non-Medicinal Ingredients:

- Purified water, organic ethanol.

Recommended Dosage:

Adults take 5-10 drops once per day at night or as directed by a healthcare practitioner
