NAC N-Acetyl-L-cysteine

NEW!

Precursor to the Most Powerful Antioxidant in the Body

- ▶ Breaks up mucous in the lungs
- ▶ Relieves symptoms of bronchitis
- ▶ Protects the heart
- ▶ Vital for liver detox (phase 1 & 2)

NAC provides potent anti-inflammatory, antioxidant, and mucolytic properties.

NAC (N-acetyl cysteine) is a sulfur-containing acetylated form of the amino acid cysteine, providing more stability and better absorption than cysteine alone. It is a precursor for production of the 'master antioxidant' glutathione, increasing free radical protection and detoxification in the liver, lungs, kidneys, bone marrow, and brain.

Heart Protection

- ▶ Reduces homocysteine
- ▶ Inhibits Lp(a) lipoprotein
- ▶ Promotes anti-fibrotic activity

Immune Function

- ▶ Fights viral and bacterial infections
- ▶ Minimize severity of flu symptoms
- ▶ Boosts immune cell function (T cells & NK cells)

Skin, Hair, and Nail Health

- ▶ Collagen production
- ▶ Main component of keratin for skin, hair, and nails
- ▶ Anti-aging and reduces age spots

Lungs & Respiratory Health

- ▶ Relieves bronchitis
- ▶ Reduces inflammation
- ▶ Break up mucous (mucolytic)
- ▶ Promotes anti-fibrotic activity
- ▶ Clear mucous from the lungs and respiratory tract

Liver Protection & Detoxification

- ▶ Phase 1 & 2 liver detoxification
- ▶ Heavy metals chelation and detox
- ▶ Protects liver in acetaminophen overdose
- ▶ Protects from liver peroxidation (glutathione)
- ▶ Binds harmful toxins and chemicals (glutathione)
